PROFESSIONAL SUMMARY

Dedicated, motivated, and detail-oriented Master of Computer Application (Semester 3) student with a strong foundation in React, django , RestApi and full stack web development. Passionate about developing scalable web applications and solving real-world problems through efficient and clean coding practices.

PROJECTS

Footwear Ecommerce Website | *PHP, MySQL* **April 2025**

- Developed a responsive e-commerce web application for selling footwear online using PHP and MySQL
- Implemented user registration and login, product browsing, category-wise product management, shopping cart, order management, and database integration
- Designed a user-friendly interface and developed an admin panel to manage products, categories, users, and orders.

Student Management System | *Python, Django, HTML, CSS, Bootstrap* **Dec 2025**

- Developed a full-stack Student Management System using Python Django with secure user authentication and role-based access control.
- Implemented CRUD operations for student records with Django ORM and structured database relationships.
- Added student search, filtering, pagination, form validation, and responsive dashboard for efficient record management.
- Designed reusable Models, Views, Templates, Forms, and URL configurations following Django MVT architecture.

TECHNICAL SKILLS

Languages: Python, Javascript, HTML, CSS

Frameworks: DJANGO, RESTAPI

Tools: GitHub, Visual Studio Code

Database: MYSQL

SOFT SKILLS

Teamwork, Problem Solving, Communication Skills

EDUCATION

Master of Computer Application (MCA) **2027**
KSV (Kadi Sarva Vishwavidyalaya) *7.44 CPI*

Bachelor of Computer Application (BCA) **2025**
HNGU (Hemchandracharya North Gujarat University) *6.86 CGPA*

HSC **2022**
MSHEB (Maharashtra State Higher Education Board) *68.50%*

CERTIFICATIONS

- Web Development Course — Internshala (2025)
- Python Programming Course (2025)

EXTRA-CURRICULAR ACTIVITIES

- Participated in the Odoo Hackathon and built a project (Vendor Bridge) using the MERN stack (2026)
